Explain

Flint was widely used in ancient Ireland, from the Stone Age on.

Stone Age people used flint to make:

1.

2.

3.

4.

They used flint to make a number of different things, because flint was:

1.

2.

3.

4.

When metal ores were discovered, people began to use metal to make:

1.

2.

3.

4.

They used metal to make a number of different things because it was:

1.

2.

3.

4.

They continued to use flint because it was:

1.

2.

3.

4.
